Annual Per Capital Disposal

Employees

Total Number of Employees: 2753

Explain who was included in this number and how was this employee number calculated.

The total number of employees was calculated from the Personnel On Board listing that was provided through the District's "Budget's" office.

Non-Employee Population

Total number of non-employee population: 1040

Population Type: Visitors

How was this population number determined?

The general public as well as federal and law enforcement employees were included in this number. The total number of Non-employees was derived from the "Visitor Sign-in Sheet" records from our front desk security staff.

Disposal

Total amount disposed: 11,137.08 tons

Total transformation: 0.00

How was this disposal number determined?

The disposal numbers were calculated by counting tonnage from the Solid Waste Disposal and Recycling Reports submitted by Resident Engineers from maintenance and construction projects for the calendar year 2017.

Annual Results

	<u>Employee Population</u>		<u>Non-Employee Population</u>	
	<u>Target</u>	<u>Annual</u>	<u>Target</u>	<u>Annual</u>
Per capita Disposal Rate (pounds/person/day):	56.40	22.17	0.00	58.68
Per Capita Transformation Rate:	11.30	0.00		
Calculated Disposal Rate (pounds/person/Day):	--	22.17

Questions

What types of waste are still thrown away (not reused, recycled, or composted)?

The type of material that tends to go to landfills is asphalt, wood/ cleared vegetation, and mixed debris.

What difficulties or obstacles have you had with finding ways to recycle, reuse or compost these types of wastes?

The difficulties in recycling asphalt, wood / cleared vegetation, and mixed debris items are that there isn't much of a market for reuse of these items as there is no value that a recycler can derive from them.

Programs

Recycling

- Beverage containers
- Glass
- Cardboard
- Newspaper
- Office paper (white)
- Office paper (mixed)
- Confidential shredded paper
- Copier/toner cartridges
- Scrap metal
- Tires

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

Page 22 of 65

At the District Offices, Headquarters, and the larger field offices, typical office supplies, furniture, and equipment are recycled. For example at District 4, white paper, mixed paper, beverage containers, cardboard, and beverage containers are recycled by a vendor called Recology. Toner cartridges, computers, printers, harddrives are recycled by DGS small business vendor by the name of Hi-Tech Recycling. Hazardous materials like used batteries are recycled by a vendor called AERC Recycling. Another form of Hazardous material is fluorescent light tube recycling handled by DGS Small business vendor Omega Pacific. At some of the smaller field offices, the employees are encouraged to recycle the above-mentioned materials. For example we have deployed Battery recycling containers to field offices similar to the ones given employees in the District Office. Another source of material that Caltrans generates is a result from our construction and maintenance projects. This construction and demolition (C & D) waste debris can vary in type and amount depending on project description and location. Typical C & D waste debris may include concrete, asphalt, steel, and guard railing. Other types of materials that are generated by the Department are a result of the fleet of vehicles owned by Caltrans. Some of these materials include motor oil, engine lubricants, anti-freeze, tires, and solvents. Even though these waste materials do not count towards what is required to be reported, they still do get recycled.

Material Exchange

Nonprofit/school donations
Internal property reutilizations
State surplus (accepted by DGS)

We have property control personnel that donates items to schools and nonprofit entities according to an approved donee list provided by the Department of General Services items like used furniture, computers, monitors, and printers

Waste Prevention/Re-use

Paper forms reduction - online forms
Remanufactured toner cartridges
Electronic document storage
Intranet
Reuse of office furniture, equipment & supplies
Double-sided copies

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

Page 23 of 65

Email vs. paper memos

Departmental Memos are distributed to personnel through "Admin. Services Distribution Dist4" e-mails to staff. In terms of the re-use of office furniture, before personnel can buy new furniture from Prison Industry Authority we have to send our requests to employees in the DGS Surplus Warehouse in Sacramento to confirm that they do not carry something comparable. If they do then we utilize the surplus material and save the department money. In terms of Electronic document storage and paper forms reduction, if there is a departmental form we need like a Purchase Request, Property Survey Form, or a tax form for a new vendor then we can access our intranet site and print out the necessary forms. This saves the department from approximating a given set of print outs for forms to only having forms printed out when they're needed. In terms of reused toner, there are several DGS approved small vendors that we sometimes purchase remanufactured cartridges from

Green Procurement

Recycled Content Product (RCP) procurement policy

The mixed paper recycling program we have at District 4 employs miniature recycle bins given to each employee. Each of these plastic blue bins are made up of recycled content material. Also over the years, the Department has undergone a significant move to lower emissions from our vehicles. Caltrans has termed this Greening the Fleet. More information on this can be found at <http://www.dot.ca.gov/hq/eqsc/CleanAir/greenfleet.htm>.

Training and Education

Signage (signs, posters, labels for recycling bins. Existing or implemented by July 1, 2018)*

Web page (intranet or internet)

Brochures, flyers, newsletters, publications, newspaper articles/ads

Our mixed paper, beverage container, battery and other recycling programs all employ media informing our employees of these programs and which materials are to be placed in designated containers for recycle. This is in the forms of flyers, district emails, and a web page which may be accessed through our intranet site
